PROFESSIONAL SUMMARY

Motivated and detail-oriented **Full-Stack Web Developer** with 6 months of freelance experience building responsive, user-centric web applications. Skilled in **React, Next.js, TypeScript, Tailwind CSS, and Node.js**, with a strong focus on modern UI component design, API integration, and performance optimization. Proven ability to translate client requirements into functional, scalable code and deliver projects on schedule. Seeking a Junior/Entry-Level Web Developer role to contribute clean code and drive impactful digital solutions.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend Development: React.js, Next.js (App Router), Tailwind CSS, shadcn/ui, State Management (Zustand/Redux), Responsive Web Design

Backend & Databases: Node.js, Express.js, RESTful APIs, PostgreSQL, MongoDB, Prisma ORM

Tools & Platforms: Git, GitHub, VS Code, Postman, Vercel, npm/pnpm

Best Practices: Cross-Browser Compatibility, Performance Optimization, SEO Fundamentals, Web Accessibility (a11y)

WORK EXPERIENCE

Freelance Web Developer / Self-Employed

Recent 6 Months

- Designed and deployed responsive web applications for small business clients using **React, Next.js**, and **Tailwind CSS**, increasing client site engagement and mobile traffic.
- Collaborated directly with clients to translate business requirements, wireframes, and design briefs into functional, maintainable codebases.
- Integrated third-party RESTful APIs and serverless endpoints to handle dynamic data fetching, user authentication, and real-time state updates.
- Built reusable UI component libraries utilizing **TypeScript** and **shadcn/ui**, reducing future development time and ensuring visual consistency.
- Conducted website performance audits and image/asset optimization, achieving **90+ Lighthouse performance scores** and sub-second page load times.
- Managed end-to-end software lifecycles, including version control with **Git/GitHub**, automated deployments on **Vercel**, and post-launch maintenance.

FEATURED PROJECTS

AI-Driven Resource & Lesson Generation Platform / *Next.js, TypeScript, Tailwind CSS, Prisma*

- Built a web platform for educators that automates resource creation using integrated AI models and server actions.
- Implemented user authentication, database persistence, and interactive filtering to allow users to easily browse and manage saved content.
- Designed an accessible, mobile-first interface optimized for rapid navigation and low latency.

Interactive Community Content Hub / *React, Next.js, Tailwind CSS, REST API*

- Developed a community web app enabling users to post, filter, and like shared content with instantaneous UI feedback.
- Implemented client-side search and subject/category filtering using derived React state to minimize redundant backend queries.
- Integrated dynamic user avatars, responsive cards, and clean UI components for an engaging user experience.
